Lexan® Bonding
Acrylic Airbrush Color

FASTER STRONGER RC PAINTS

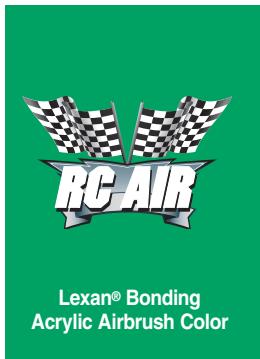

Badger's RC AIR Lexan® Bonding Acrylic Airbrush Colors are ready to transform your Lexan® car bodies into wild and exciting creations! From standard opaques to brilliant iridescents, shimmering metallics and hot neons, RC AIR Airbrush Colors, combined with your creativity, will shift your car bodies from mediocre to magnificent!

RC AIR is a safe, airbrush-ready, water-based acrylic. It contains a newly developed hardener designed to enhance the drying time for superior Lexan® adhesion. RC AIR also contains a flex resin for increased flexibility and bonding durability during crashes and rollovers.

Badger's RC AIR Lexan® Bonding Acrylic Airbrush Colors are ideal for painting on a variety of surfaces including Lexan®, resins, plastics, and many other porous and non-porous materials. RC AIR is non-toxic, with a low odor; it contains no harmful solvents or chemicals and meets and exceeds the ASTM-D-4236 standard of excellence.

- 🚩 Large selection of bright and bold colors
- 🚩 Blendable and mixable for creating unique and specialized tones
- 🚩 Highly concentrated-no need for additional pigments or powders
- 🚩 Outstanding flow characteristics eliminates tip drying
- 🚩 Over 40 assorted colors plus clear coat
- 🚩 Available in various sizes
- 🚩 Manufactured and bottled in the U.S.A.!

RC AIR . . . FINISH FASTER! FINISH STRONGER!

RC AIR™ AIRBRUSH COLORS

*RC Paint can be used on:
Lexan®, plastics, resins, wood, metal,
and various other porous and
non-porous surface.*
